Bay St. Louis Represented at Two-Day Convention Held on Coast.

Ten councils represented Knights of Columbus Sunday and Monday at a two-day state convention held at Biloxi. Pere LeDuc Council of Bay St. Louis was represented by Arthur A. Scafile and T. J. McCaleb both Sunday and Monday and took prominent part in the deliberations.

John S. Cabili of Gulfport was elected state deputy and Vicksburg selected as the next convention city. Other officers elected are August J. Stone, Natchez, state secretary; John J. Herman, Vicksburg, state treasurer; Thomas J. Wiltz, Biloxi, state advocate; Joseph Reilly, Greenville, state warden; the Right Reverend R. D. Gerow, state chaplain; Phillip Lieb, first alternate to the supreme convention; Albert J. Ragusin, Biloxi, second alternate.

The association went on record as condemning obscene literature, as a menace to the faith and morality and conducive to the undermining of the moral fibre and character of the youth, the future leaders and moulders of public opinion. It urged renewal and continued vigilance of the subordinate councils through the officers and members in counteracting the sale and distribution of this subversive literature.

Federal Loans In Hancock County May Be Extended.

The opportunity to reduce the annual principal payments on Land Bank Commissioner loans by re-amortizing them over a longer period of years has been opened to many of the 13 Hancock county farmers who have Commission loans, according to a statement received today from the Farm Credit Administration of New Orleans.

TO HONOR E. J. BOWERS MEMORY

John H. Lang of Pass Christian Visit Bay St. Louis in Interest of Project.

Hon. John H. Lang, resident of Pass Christian, and who, perhaps, no man is more personally acquainted with the history of the Mississippi Gulf Coast, was a visitor to Bay St. Louis Tuesday, accompanied by his accomplished daughter, Miss Jane Lang, who serves not only as secretary but constant companion—a devotion of father and daughter that is outstanding.

Mr. Lang was in Bay St. Louis in the interest of a project recently launched for residents of the Mississippi Gulf Coast, namely to raise funds for a memorial in stone and to place it in Gulfport.

Our people personally knew Eaton J. Bowers, for whom this tribute in stone is to be built and name of that of Bowers is more closely associated with the Mississippi Gulf Coast in its pioneering days and more latterly with its building and realization of fondest hopes that, perhaps, any other name.

Eaton J. Bowers came to Bay St. Louis and Hancock county as a youth who had finished his education and received his sheepskin for the study of law. Associated with his father-in-law, the late Col. Ben Lane Posey, he rapidly rose to heights that make his name permanent on the tablet of time and in the halls of history. His excellent career shed glory to the name of Hancock county and the Coast.

Mr. Bowers was representative to the Legislature from Hancock county for several terms and also served as State Senator. Later he was elected to congress from this district and served both in the State and national salons with distinction and result. It was he who secured State funds for the building of the harbor on the Coast and later continued this work in Congress. He served the Coast and its people immeasurably well and it is fitting that a monument of some kind be placed to perpetuate his memory.

Mr. Lang was soliciting contributions and responses are encouraging. Contributions may be sent to him at Pass Christian address. The monument proposed will be a companion to that now at the other end of park strip, to the memory of Harrison county world war soldiers, and will be set on opposite end—opposite library and courthouse.

Mr. Bowers was one of the pioneers in the work of building and developing the Mississippi Gulf Coast to that point that makes its existence and success of today possible.

MANY VISIT OFFICES OF ASSN.

Peoples Federal Savings and Loan Association Has Open House on Occasion of Anniversary.

Celebrating the fiftieth anniversary of the Peoples' Building & Loan Association, now the Peoples Federal Savings and Loan Association, at its new and enlarged quarters, Masonic Temple, a large number of people visited the place all thru the time between 7 and 9 o'clock.

It was a large throng that passed thru and remained a while visiting, admiring the handsome new quarters and fixtures, resembling somewhat the interior of bank; to view the beautiful flowers that had been sent by business firms, friends and others, locally and from away. The flowers were artistically set about and placed by Mrs. Alice C. Buckley whose well known taste always excels.

Mr. George R. Rea, president, with members of the reception committee, received the guests who were unanimous in their expressions of good wishes and in addition to the spaciousness and business-like appointments of the place.

A reception committee of ladies received and poured punch. These included Mrs. Charles Traub, Jr., Mrs. Bish Clark, Miss Mae M. Edwards, Miss Margaret Green.

A story of the long line of successes of the Association was carried in these columns last week. The wish was unanimously expressed that the association would enjoy a continuance of this existence for many more years to come, and, further, to the effect, its business would continue to increase, expanding all the time, keeping step with the progress of Bay St. Louis.

Mr. Rea, president, expressed satisfaction at the success of the reception and was appreciative of the large number of beautiful floral pieces sent by well wishers.

Mr. C. L. Reab was the builder and contractor of planning and remodeling the interior, well expressing high-class and finished workmanship.

JOHN A. SUTTER, VETERAN RESIDENT, OF GULF COAST DIES

Pioneer of Sinking Artesian Wells on Coast—Was 72 Years Old.

John Alexander Sutter, 72 years old, died at his home in Pass Christian after an extended illness. He was credited with having introduced the artesian well in South Mississippi and was said to have drilled scores of wells during his lifetime.

He drilled two wells at Ship Island one for the United States quarantine station and the other to supply merchant ships with water. He was also a leader in the development of the pecan industry.

He is survived by his widow; three sons, Donald, Fred and John, Jr.; a daughter, Miss Lillian Jane Sutter, all of Pass Christian; two nieces, Mrs. Frank Gordon of Milwaukee and Mrs. Lloyd Simmons of Delafield, Wis., and a nephew, Minor Sutter of Pass Christian. He was the grandnephew of General John Augustus Sutter, founder of San Francisco.

BENEFIT FOR RED CROSS REALIZES AMOUNT THAT WILL EXCEED SET QUOTA

Dance at Stanislaus Gym Tuesday Attracted Many—Beautiful Settings of Junior-Senior Prom Used—Committees in Charge.

The dance given on Tuesday night by the local chapter of the American Red Cross to assist in reaching the quota of \$600.00 asked for by the National Headquarters was a huge success both financially and socially.

The dance was given at St. Stanislaus College gymnasium and the decorations which had been used for the Junior-Senior Prom of last week were left untouched and made a beautiful setting for this large affair. The decorations were Mexican and beautiful in arrangement and design, the top of the hall concealed and the effect of a star-studded heaven cleverly carried out. Tables and chairs had been set about, outdoor cafe style, where those not dancing could sit and enjoy refreshments.

Dance music was furnished by Peranich's Blue Melody Band and the attendance was one of the largest noted at any of the large dances given this year.

A. G. Favre, disaster chairman for Red Cross for Hancock county, was chairman of the affair and was ably assisted by the following committees: Arrangement: Mrs. John N. Stewart, Mrs. G. Y. Blaize, Mrs. L. F. Maumas, Miss Margaret Green, Mrs. J. T. Prowell and Mrs. Claude Monti. Music: Miss Levia Engman and Mrs. Douglas Bourgeois.

Ticket: Mrs. Edouard C. Carrere, Mrs. Charles G. Moreau, Mrs. Edmund F. Fahey, Mrs. George R. Rea, Mrs. Dennis F. Burge, Mrs. Eugene Mogabgab, Mrs. Alfred Vassalli, Mrs. F. R. Curran, Mrs. Milton Phillips, and the Misses Kathleen Renshaw and Elsa Maufray.

Although the drive for funds and the dance have been unusually successful and the quota subscribed, the Chapter will continue to accept donations as the call on the Red Cross grows each day with Europe's war needs increasing and persons who have not been reached or anyone wishing to give will please send their donation to either Mr. Rea or Mr. Favre.

Besides these activities, a number of other interesting ones are also listed as follows:

Selection of materials and patterns. Reading of patterns. Clothing construction of any kind. Refinishing any old or new piece of furniture or floors. Making curtains or draperies. Making bed spreads. Hanging pictures or arranging furniture in the home. Improvised dressing table. Food preservation: Making jellies, preserves. Canning—Steam pressure or open kettle. Buying meats. WESTERFIELD TO SUCCEED HAPES AS HEAD COACH BAY HI

New Assistant Jake Scott Of Scooba Announced Assistant by Supt. Ingram.

Two collegiate teammates will be reunited in the coaching field at Bay St. Louis next season. Supt. S. J. Ingram of Bay St. Louis high school announced that George Westerfield has been elevated to head coach, succeeding Ray Hapes, and Jake Scott of Scooba signed as assistant.

Westerfield, who served as assistant at Bay High last year, and Scott were teammates at Mississippi Southern College in Hattiesburg, graduating the same year.

The new head coach came to Bay St. Louis last fall and made a splendid record as an assistant, turning out a strong basketball team during the winter campaign.

In his new capacity, Westerfield will be in charge of the athletic department, serving as head coach in football and basketball.

Scott, who is expected to arrive at his post early in August, will assist with the football team, and serve as boxing mentor, it was announced. Scott, who formerly coached at St. Martin, was a three letterman in college in football, basketball and boxing.

While plans for the gridiron training campaign remain to be worked out in detail, Coach Westerfield is expected to issue the initial call for sometime in August. When the squad reports seven lettermen from the 1939 eleven will be missing.

The Tigers will face a ten-game test, according to the schedule announced by Supt. Ingram. Nine games already are definitely billed and Mr. Ingram stated a tilt was pending on the November 15 open date.

CAUSE FOR CONGRATULATIONS.

THE American Red Cross has set a goal of ten million dollars to send the war-stricken civilians of Europe. Hancock county's quota was set at \$600.00. The Sea Coast Echo is glad to learn that Bay St. Louis and surrounding territory have in the main raised the sum named and then some over.

This is a prompt and generous reply when we realize how our people are called upon frequently in reply to urgent appeals.

There is much distress from time to time over the world. And the Red Cross is ever ready and willing to co-operate in the work and to raise funds with which to purchase supplies and food.

Bay St. Louis and Hancock county are not rich sections, as the expression goes, but our people are rich out of the largeness of their hearts.

They are prompt and generous and those who do the actual work of organizing and soliciting give their time and endeavors without stint.

It is glorious to realize that one lives in such section of the country where the people know no bounds, no limitations in giving and doing; it is blessed to thus respond and surely heaven above must lavish its shower of blessings.

OUR GOLD WORTH HAVING.

THE monetary gold stock of the United States has crossed the \$19,000,000,000-level and the experts are already beginning to worry about what will happen to this huge hoard of the totalitarian states reform the savings economy of the world.

Bankers and economists in this country have expressed the opinion that the gold standard cannot operate if Germany and her allies win the war and dominate the future economic set-up of the world. Their system of trading, involving barter and controlled swapping, tends to eliminate the necessity of another medium of exchange.

While it is within the realm of possibility, in the event of a German victory, that gold will lose some of its importance in international trade, the disability will be temporary. In fact, we do not think that the United States need worry very much about having a worthless gold stock on hand. We might worry about the possibility of losing our gold stock if this nation is ever attacked by a coalition of powers, such as Germany, Italy and Japan, after the totalitarian states have conquered Europe.

FACING WORLD FACTS.

ONE thing shown by the army maneuvers in Louisiana and Texas was that we need more tanks and planes. To extend a protective arm over the whole United States and possibly the whole of the Western Hemisphere would require many times the present automotive equipment of the army.

The number of trucks passing through Bay St. Louis were seemingly plenty in number, there being no end to the long procession of the best part of a day to pass. However, this, as a whole, is as the proverbial "dry drop in the bucket." This country must arm itself to the very teeth.

It will have a moral and telling effect if nothing else, to say the least.

AUTO DRIVERS' LICENSE.

THE message of the President to Congress, asking for nearly \$1,200,000,000 in cash and authorizations to hasten the strengthening of our national defense indicates the serious view that Mr. Roosevelt takes of world affairs.

The prompt indication that Congress will speedily give approval to this suggestion reflects the growing understanding of the implications that a German victory will carry for this country.

While isolationists will continue to heckle the program and attempt to delay the execution of the plans it is safe to say that, at last, the vast majority of our citizens is cognizant of the threat that Hitlerism throws at civilization as we understand it.

An airplane detection which will give 15 minutes warning of approaching enemy craft has been developed by the Army. This will give ample time for defending planes to get off the ground and meet the attackers in the air.

Unlimited expansion of the army air corps and training of 50,000 pilots to handle planes were approved by the house by a vote of 391 to 1 within a few hours after President Roosevelt's expansion plan had been announced.

Fifteen French generals have been "canned" by the newly appointed Allied commander, Gen. Weygand. Seven colonels were jumped to major generals to replace some of those removed. Lack of proper coordination among French forces in the fight for possession of Channel ports is believed to be the reason for the changes.

Former Lt. Gov. Snider suggests making over farm tractors into armored tanks equipped with machine guns. These could be used in case foreign blitzkreigs should strike against this country. Home guards could be trained to operate them. The plan has its good points. Sort of beating up your ploughshares into swords.

CONGRATULATING GRADUATES.

THE schools of the nation are closing their doors once again and the advent of commencement brings many young men and women to the threshold of a great venture in living.

For a number of years they have pursued the paths of learning, picking up information and experience through various school years, and now, at last, they receive their diplomas and step into the world of grown-ups.

They will find it vastly different from the environment in which they have been nurtured. There will be no assignment of particular tasks, with success surely crowning the efforts of those who think and do well. In life, unlike in school, meritorious performance is not always crowned with success and laurels.

The high schools of Bay St. Louis and Hancock county are graduating a fine crop of young men and women. Many of them will continue their education at college but some will not have that privilege. They will go forth immediately to seek their economic fortunes in business endeavor, battling the various forces that operate in the struggle for profits.

Those of our graduates who have the opportunity of attending college are fortunate only if they make use of the additional education advantages that come to them. Certainly the training that college life affords is worth what it costs, in time and money, but these benefits do not flow automatically into the being of the student. They must be earned.

The graduates who have no chance to continue their studies in colleges or special schools need not accept any inferiority complex in regards to their classmates who study longer. While it is not to be denied that some advantage accrues to college trained individuals, this is not conclusive in the struggle that engages adults in the fullness of their existence.

The Sea Coast Echo wishes to congratulate the students of our high schools who complete their courses this year and, at the same time, to extend felicitations to those of this county who complete their college careers. May all of them play the game of life fairly, earning just rewards and rejoicing in the similar success of their fellowmen.

PREVENT FOREST FIRES.

LOSS suffered in the United States every year through forest fires invites the serious attention of all those who possess timber land.

While about half of the fires are caused by lightning, the other half is caused by the carelessness of human beings. There is no defense against the lightning-set blaze except through attempts to extinguish the blaze, but men, women and children can be more careful whenever they visit the woods, thus cutting down the loss of timber every year.

The Forest Service of the Department of Agriculture reports that in 1939 there were 15,725 fires in the national forests and that unprotected forest land reported 145,000 forest fires. How many smaller blazes occurred without being reported is unknown.

Many farmers have found a source of revenue in their forest acres. Gradually, they are learning not to burn over their woodlands because of the effect of fire upon the growth of timber. Moreover, forest districts have been organized to maintain lookout and fire-fighting facilities. Even with these activities, there are sections of the nation where one can see, in dry weather, innumerable forest fires which burn valuable timber.

Hancock county's work in this line is in accordance with the success maintained elsewhere. Fire Ranger Shaw is a hard worker in the cause. Relentless, never lagging and it is notable the number of fires, as compared with records of other years have diminished and much of the county's natural resources thus not only preserved but widened to value.

AID TO HELPLESS VICTIMS.

THE American Red Cross is appealing to the people of the United States to contribute \$10,000,000 to a war relief fund. Officials of the organization say that it is impossible to exaggerate the rescue problem, pointing out that "probably 5,000,000 French and Belgians already are on the march, homeless, without food, many wounded and sick."

The sympathy of the people of the United States is undoubtedly overwhelmingly on the side of the Allied nations. One more, in the midst of warfare, the civilian population of these nations is suffering unimaginable hardships. If our sympathy means anything, we should respond to this appeal of the Red Cross and make available the \$10,000,000 requested and, if necessary, other millions later on to assist in the care of the refugees, many of whom are helpless children.

Hancock county's quota is \$600.00. That surely is a small amount expected from the county when it is considered how urgent is the call and how much it will accomplish in the name of humanity. A. G. Favre, chairman disaster committee, with County Chairman Geo. R. Rea and associates, is working indefatigably and successfully in the drive for funds. The call is for vast good and the workers of this cause confident, we feel ought to and will go over the top. Hancock county has never fallen down to the call of any worthy cause and surely this time will not be the exception.

TEACHES SHORTAGE OF MATERIAL.

A SIMPLIFIED form of drivers' license is being prepared by the Highway Safety Patrol. It will do away with all the various coupons on the old form which were designed to be torn off and sent to state headquarters when the law was violated, but which failed of their purpose. The new forms will be ready early in June and due notice will be given so that drivers may renew. So many readers of The Sea Coast Echo have either written or telephoned regarding Mississippi State license for drivers' license, which have long expired, that we are glad to give this information. In the meantime there is no penalty to be imposed but people do wish to know time of limit to avoid prosecution.

Hollywood Notes.

AFTER six years before the camera, during which time she has brought more than \$200,000 to her studio, Shirley Temple will retire to lead "a normal child's life." Her parents have decided that it will be wise for her to be absent from the screen until she is past the awkward adolescent age.

Returns from commercial tieups, exclusive of her salary as a movie star, will net Deanna Durbin more than \$90,000 this year. Not bad for such a young lady, eh?

Ginger Rogers will wear a jet-black wig in her role in "Lucky Partners," her sixth coiffure color change in as many pictures.

So pleased are the Warners with the reviews of "All This and Heaven Too," in which Bette Davis and Charles Boyer are teamed, that they want to sign Boyer for a series of romantic roles with Miss Davis.

Paul Matthews, 13-year-old boy of Akron, Ohio, looks so much like Charles Laughton that he could act as Laughton's double. He will appear in RKO's production of "Tom Brown's School Days." Laughton, however, is said to walk a block to avoid meeting his "double," and has refused to be photographed with him.

Distributors who felt that they were being robbed by prices asked as rental for "Gone With The Wind" feel that they are getting it back on "Rebecca," which they booked at an average feature program price and which has proved almost as great a box-office success as GWTW.

So pleased was Robert Taylor with the moustache which he adopted recently that he has decided to keep it for a while. His director thinks it adds "new interest to the star's personality." Maybe!

Age is creeping up on some of the most popular actors in Hollywood, with the very scarce crop of youngsters being groomed to take their places. Among the oldsters are: Gary Cooper, 39; Henry Fonda, 32; Robert Montgomery, 36; Herbert Marshall, 50; Jack Holt, 52; Rob Taylor, 29; with Tyrone Power the youngest of the established stars, 27.

Madeline Carroll is planning to build a glassed-in penthouse atop her Palos Verdes beach-house so she can get plenty of private sunbaths.

Loretta Young and Ray Milland, seen in "The Doctor Takes a Wife," are to be teamed again in "This Thing Called Love."

The Dead End Kids are to be taken from the slums of New York to the migrant camps of California. They will portray "Oakies," relying mainly on their wits and a pair of loaded dice for their substance. Billy Halop, Nan Grey and Rosina Gail have the leading roles in the picture, which is entitled "You're Not So Tough."

In order to prove that he or she isn't exactly dependent on Hollywood, almost all of the leading actors or actresses have a sideline—some profitable and some otherwise. Norma Talmadge has several apartment houses. Tyrone Power owns a reasonable rent district, Judy Garland specializes in flowers; Jane Withers and a girl friend have a hot-dog stand; Joan Crawford has an interest in a hat shop and Reginald Denny has for the past ten years been running a busy little factory which puts out model planes and gliders.

Graduation of DeLisle Public School, May 23.

Before the distribution of the diplomas the Very Rev. John H. Gasper, S. V. D., delivered a most practical and splendid address. He congratulated the seven graduates for their labors which brought them success and the desired diploma.

He stated that everyone should view himself largely in terms of eternity, and to do justice to his religious, philosophical and practical sense. Then he will have completely grasped the importance of human life in this world in its true meaning.

That alone brings the happiness which every human being craves for, not riches, honors, power or pleasures. The speaker illustrated this in many examples from actual life.

The truest happiness lies in the faithful culture of mind and heart, in the love for one's country, in constant loyalty to one's religion.

He charged the graduates with their sublime responsibility. They have laid a firm foundation; now they must "follow through" to accomplish their God-given mission in life.

The following illustration will prove this. A young architect had graduated with the highest honors. A venerable old man, struck by such superior intelligence told him: Come and build for me the finest castle. Select the best material. The young architect went to his work at once.

Immediately he laid a solid firm foundation. Then he grew tired, he schemed, substituted inferior material and pocketed the money. He finished the castle hurriedly. They called the venerable old man to come out to see the structure.

He personally conducted him thru the building, centering his attention on the better parts of the house, talking volumes about his efforts to distract the man's attention and hinder him from too close scrutiny. The wealthy man seemed pleased, and he said to the young architect: "I am too advanced in years to enjoy this castle. This castle is yours from now on." There stood the young architect, the owner of a castle that was about to collapse; his money spent, his future ruined. He had not followed through. The same would happen to graduates who do not follow through. The same would happen to graduates who do not follow through after they have laid a firm foundation, if they do not persevere. Then life would be a failure.

The speaker was warmly applauded. Professor R. D. Brown, thanked the speaker in a very appropriate manner and he proceeded to give the diplomas. For every one he had very witty remarks which were highly appreciated by the audience. In fact, the deep knowledge of psychology is largely responsible for the success of Professor Brown as teacher and educator. In his work Professor Brown is well assisted by Miss Evelyn Anderson and Miss Ernestine French and Mrs. R. D. Brown, wife of Professor Brown.

The graduates were: Gladys Parker, Wilda Ladner; E. C. Niolet, Emil Moran, Harold Pavolini, Howard Ladner and Lucy Niolet.

MICKEY ROONEY ENACTS "YOUNG TOM EDISON"

Comes to A. & G. Screen in First Juvenile Biography Of an Actual Person.

Giving Mickey Rooney his first portrayal of a real life character, in which the boy star has an opportunity to prove that he is a genuine actor, "Young Tom Edison" opens at the A. & G. Theater, Sunday.

Not only does this picture present Rooney with his first biographical role but it is the first such role ever given a juvenile player, despite the fact that many adults have played real-life characters repeatedly.

"Young Tom Edison" also marks the second teaming of Mickey with Virginia Weidler, who scored as his nemesis in "Out West with the Hardys." She played his sister in the present picture, a role which Hollywood believes will definitely make her a star.

In the two other stellar roles of the picture, Fay Bainter plays Mrs. Edison and George Bancroft, Mr. Edison. Others in the cast are Eugene Pallette, Victor Kilian, Bobbie Jordan, J. M. Kerrigan, Lloyd Corrigan, John Kellogg, Clem Bevans, Ely Malyon and Harry Shannon.

The picture also renews a star-director-producer combination of outstanding interest. Director Norman Taurog and Producer John W. Considine, Jr., were together in those capacities on the sensational "Boys Town," in which Mickey was a co-star.

The story is an intense human-interest one, complete in itself although it covers only the boyhood of Thomas A. Edison. Replete with comedy, drama, tears, thrills and adventure, it is basically the story of the triumph of a typical American boy who had to show his home folks that he was not the numbskull they believed him to be.

R. W. TAYLOR SCHOOL HAS SUCCESSFUL YEAR OF ACTIVITIES

Review City's Ward School —Pupils Receiving Awards—Medals.

The R. W. Taylor School, city school in Ward 1, has just closed a very successful term of school and we wish to thank all of our friends who in any way contributed to our work during the year. Our many activities are listed as follows: A Halloween party, sponsored by our P. T. A. was a very enjoyable affair and the penny party to raise funds to pay our state P. T. A. membership fees netted a substantial sum and the amount left after paying the fees was given to the lunch fund.

The Christmas tree was financed by Mr. George E. Pitcher's generous check covering all expenses. Mr. and Mrs. Pitcher are indeed "Fairy God Parents" to Taylor school. Both pupils and teacher are very grateful for their generosity.

Mrs. Moreau donated candy for the Christmas party. Mrs. John W. Bryan and son, James, gave a large box of chocolate Santa Clauses. These were used in our program to fill Santa's sack, to be given to the little visitors at the close of their visit to Santa's home.

At our Easter program James Bryan again surprised us with a large box of candy, much to the delight of the children. Thank you, James, you are a real good friend of Taylor School.

We are indebted to Miss Louise Crawford for the beautiful "Peep Show" portraying Santa's visit at Christmas time. We all enjoyed looking at that scene. Miss Crawford also brought many beautiful story books for our use in class work and this was a real contribution of help for our work.

Our lunch room was ably managed by Mrs. Celia St. Angelo and her assistant Mrs. Myrtle Ellis. They served delicious lunches which made possible a gain in weight and better class work as a result of hot lunches at noon.

Our Rhythm Band was a worthwhile project for the pupils made wonderful progress in learning their little instrument 3-4 and 4-4 tempo. This little band played for our closing program much to the delight of their parents who came especially to hear them play. At the close of this program the following named pupils received gold medals:

Rose Ella Messick, Teddy Morel and Inez Pavolini. Scholarship: Odelle Saucier and Claire Ann Green medals for perfect attendance.

Mr. Pitcher gave two of these medals; Mrs. Stockstill, two and Mrs. Moreau, one.

The honor pupils for this term are John Fastingier, Alton Morel, Louis Oliver, Evelyn Randolph, Cherie Ann Green, Jo Ann St. Angelo and Patsy Pouyadon.

In conclusion let us tell you how proud we are of Mark Solomon, Mark Carmichael, Elliot Coward and Rita Benigno, graduates of Bay High. They were pupils in Taylor School through the 6th grade. "We are shining in the reflected glory" of the many honors they have won this year.

The Poet's Corner

TO MY ALBUM

By HUGH BURBANK

As I look into thee, dear album, As I turn thy pages, faded with age, It brings back memories, sweet memories, That have been portrayed on every page.

I notice now dear album, That the front of thy pictured bliss, Has got nary a portrait Of a single little Miss.

But thy back, thy back dear album, Shows my advance in age; The back of thee is covered With girls on every page.

Yes, thou, my dear old album, Art as a treasure-chest, Filled with valuable Mem'ries, Of those I loved the best.

Not only are there portraits of humans, But there are pictures of many pets; Yes, there are also houses, That house, I loved the best.

U. S. MARINE CORPS CALLS FOR VOLUNTARY ENLISTMENTS NOW

Post Master Leo G. Ford Announces Waiting List For Young Men Wanting To Enlist.

The United States Marine Corps recruiting office at 535 St. Charles street, New Orleans, La., is now maintaining a waiting list of young men who desire to join their renowned military organization according to an announcement made by Mr. Leo G. Ford, local postmaster. However, the turnover is very rapid and applicants can be assured of a warm welcome and a fair chance of quick enlistment.

If the President's demand for more planes, anti-aircraft, and other national defense facilities is approved by Congress, the demand for the necessary increase in personnel will probably be readily met by the Marine Corps recruiting stations.

Applicants with at least two years high school education are preferred. Young men between 18 and 21 must be able to obtain the written consent of their parents or guardians.

Sea Soldiers serve aboard aircraft carriers, battleships, and cruisers of our Navy; in Alaska, China, Cuba, Guam, Hawaii, Panama, the Philippines, and West Indies; and at all naval stations throughout the United States. THE CORPUS CHRISTI PROCESSION HELD ON SEMINARY PREMISES

Two Outside Altars and Chapel Altar Used—Occasion and Procession Inspiring.

Sunday afternoon, favored by marvelous weather, the Corpus Christi procession was held on the local seminary grounds. The chapel was beautifully decorated with banners, draperies and wreaths. Close to two hundred lilies were on the main altar alone, besides other rare blossoms and plants. Two outside altars were erected in prominent places where benediction was given. Statues of saints were placed all over, in windows, in niches, on window sills, on porches, on the lawns, all tastefully arranged.

Streamers and banners greeted from the trees and buildings. At 4:30 the Blessed Sacrament was carried in pompous procession from altar to altar amid hymns and prayers, under the direction of the Rev. Hubert Posjena, S. V. D., the Rev. L. Friedel, S. V. D., being master of ceremonies.

The Very Rev. J. H. Gasper, S. V. D., rector of the seminary, officiated. The Rev. J. Holken, S. V. D., led the parishioners of St. Rose de Lima church in well-ordered and edifying fashion. The Sisters of the Holy Ghost added to the solemnity of the occasion by leading the Children of Mary and numberless flower-girls. Members of the different sodalities, especially the Knights of Peter Claver were well represented.

It was a unique Eucharistic Procession inspiring for all, for visitors and friends of the Seminary.

It was generally observed how beautifully the seminary grounds became throughout the last years, so hidden, yet so inviting. Lately a Lourdes grotto is being erected with six natural waterfalls fed by an artesian well, visible from the highway. No doubt, St. Augustine's Seminary greatly contributes in making our hometown better known and attractive.

The Poet's Corner

By Hugh Burbank

UPON THE DEATH OF A FAVORITE HORSE.

Never will I forget the day, Old Dobbin,
The day that I bought you from old Jeffry Bolt,
I'll never forget how those neighbors were remarking,
That they ain't never seen such an ugly lookin' colt.

Never will I forget the day old Dobbin

The day I brought you to the county fair,

When the judges gave you that pretty blue ribbon,

I'll never forget how those cursed neighbors stared.

I ain't to this day had a colt, old Dobbin,

As strong, and as beautiful as you,

One's I had came, and left to plow the
